

CAREER OUTCOMES | CLASS OF 2024

LA ROCHE UNIVERSITY OFFICE OF CAREER AND PROFESSIONAL DEVELOPMENT

INTRODUCTION

The La Roche University Class of 2024 consists of students who graduated in August 2023, December 2023, and May 2024.

The First Destination Survey was initiated by the Office of Career and Professional Development prior to graduation and concluded approximately one year after each graduation date.

Additional data was gathered from online sources, employers and faculty. This method of reporting career outcomes data follows the reporting guidelines established by the National Association of Colleges and Employers (NACE).

La Roche made a good faith effort to verify the information obtained by all sources other than the responding graduates.

OUTCOMES TERMINOLOGY

Cohort Size: Number of students.

Career Outcomes: The percentage of graduates who are employed full- or part-time, in military or volunteer service, and/or enrolled in continuing education.

Knowledge Rate: The percentage of graduates for which the institution has reasonable and verifiable information concerning the graduates' post-graduation career activities.

CLASS OF 2024

AUGUST 2023, DECEMBER 2023 AND MAY 2024

185 - COHORT SIZE
72% - KNOWLEDGE RATE
97% - CAREER OUTCOMES

MASTER'S

171 - COHORT SIZE
49% - KNOWLEDGE RATE
95% - CAREER OUTCOMES

DATA COLLECTION METHODS

Data was collected for all graduates who obtained a degree from La Roche University during the designated academic year. The following steps were followed during the data collection period:

- 1 Shortly before graduation, potential graduates were identified by the La Roche University Registrar and Office of Career and Professional Development. These students were sent emails inviting them to complete the First Destination Survey.
- 2 The list of survey respondents was continuously updated for accuracy after graduation based on a student's degree status.
- 3 Over a one-year period, automated reminder emails were sent out from the Handshake platform to graduates who had yet to respond.
- 4 Data provided by the August 2023, December 2023 and May 2024 cohorts were combined to produce this annual report.
- 5 Outcomes data were presented by degree for the entire graduating class year and also by degree type.
