MINOR IN SUSTAINABILITY INTERDISCIPLINARY STUDIES (SIS) PROGRAM GUIDE

Student Name _____
I.D. Number _____

First-Year Student Transfer
 Change of Major Readmit

PURPOSE: A minor in Sustainability Interdisciplinary Studies will provide experiences catering to students interested in issues of sustainability and their integration into each of their respective discipline and profession. This minor will focus on expanding awareness of environmental justice and sustainable development as well as community (local to global) and integrative thinking. It must be completed within the student's graduation timetable.

REQUIREMENTS: A total of 18 credits are required to complete this minor. There is one required course (3 credits), and a minimum of 4 Elective courses (12 credits) can be chosen from the list of elective courses. An integrated experience from any 3 credit course as listed below completes the Minor.
